2020 Newsletter

Volume 12 September 2020

We are not having a clean-up day this year. The cemetery is in good condition for now. We are working on some special projects though. We have a headstone straightening project and are setting some new stones on unidentified graves.

The donations are down, probably due to the pandemic and the mowing cost is up. This is mostly due to the County Sheriff Department not providing mowing. However, we are still within the budget.

We are looking forward to our Annual Meeting on January 16, 2021. This is our yearly business meeting in which you can participate. See you there!
